

# PNG ROAD MAP

# Where we are

Process Initiation- Department of Environment & Conservation through the Minister for Environment & Conservation and the water users

## Stakeholders Identified

DEC

POLICE

EDA RANU

EDUCATION

DAL LAND USE

NCDC

PNG POWER

PNG WB

HEALTH

LOCALS

DOCP

NGO's

CIS

Steering committee in place- made up all/most stakeholders to look at all GEF projects under DEC coordination

Office of climate change and environmental sustainability will coordinate the process that would also consult with stakeholders

Under MDG 7 task force made up all departmental heads

Tech/Comm reports to them

Known Stakeholders in place, their interest was gauged

An inception workshop for all GEF funded projects is tentatively scheduled for end of August 2008

There will not be a separate vision as the DEC has a New Strategic Direction that outlines a vision for the next 10 years-The "Goal" is clear

## What We Need To Do

Through a collective approach- there will be sectoral assessments for MDG 7: Environmental Sustainability initiative to promote economic & social development

IWRM Plan will be developed in the first two years into the process

The plan will be contributing to Government's environmentally sustainable economic growth initiative - Includes MDG 7

Hoping to capture political & community interest up front to own the plan and join in the implementation

Implementation by all stakeholders
